EDUCATION

Bachelors in Computer Science
Bahria University
2018 - 2022

Faculty of Science
Army Public College
2015 - 2017

Matriculation
Bahria Foundation School
2013 - 2015

SKILLS

- Strong command of React.js, NextJS building interactive and dynamic user interfaces for optimal user experiences.
- Well-versed in Node.js utilizing its event-driven architecture for scalable server-side development.
- Proficient in building RESTful APIs and GraphQL APIs, tailoring communication protocols.
- Proficient in MongoDB and PostgreSQL, utilizing these database management systems for efficient and scalable data storage and retrieval.
- Knowledgeable in Material-UI and Bootstrap, Tailwindcss employing popular UI libraries for streamlined design flows
- Comfortable working with **Agile/Scrum** methodologies, ensuring efficient project management and delivery.
- Capable of deploying applications using platforms like **Heroku** or cloud services.
- Proficient in **Git** for version control.

WORK EXPERIENCE

Full Stack Engineer   2022- Present
Alimcosoft (PVT) l Islamabad

As a MERN full-stack web developer at Alimcosoft, I played a pivotal role in designing, developing, and maintaining web applications. My responsibilities included creating responsive and user-friendly front-end interfaces, managing the server-side logic , and ensuring seamless data storage and retrieval. I collaborated with cross-functional teams to translate project requirements into efficient and scalable software solutions. My role involved debugging, optimizing, and continuously enhancing the web applications to deliver high-quality, performant, and secure digital experiences for our clients.

Intern Frontend Developer   2020 - 2021
Erus Technologies l Rawalpindi

During my internship at Erus Technologies, I actively contributed to frontend development projects, showcasing proficiency in HTML, CSS, and JavaScript. I played a pivotal role in enhancing user interfaces by implementing responsive design principles and creating interactive features. Collaborating with the development team, I utilized the React framework to build dynamic and engaging web applications. I gained practical experience in debugging, testing, and optimizing code for improved performance. Additionally, my role involved ensuring cross-browser compatibility and adherence to best practices. This internship provided me with valuable insights into real-world frontend development, refining my skills and problem-solving capabilities.

OTHER INTERESTS

- Enthusiastic about exploring new technologies and staying updated on industry trends.
- Avid learner with a keen interest in continuous self-improvement and skill development.
- Enjoy participating in hackathons and coding challenges to solve complex problems creatively.
- Enjoy reading tech blogs and articles to stay informed about the latest advancements in web development.
- Outside of technology, I have a keen interest in Bodybuilding, Football and Watching Seasons.
